Profile

Innovate and optimizes solution seeker. Excited to be at the development phase of my career as a full-Stack Developer. I am ambitious and passionate about my work and always ready to learn from other experience.

Projects

E-Commerce Website
This website has Search functionality, Product page, Shopping Cart, Check out system,Payment gateway, Customer account management. this website built with the Redux and Node.js and Strapi.It is a robust and scalable platform that can handle a large volume of traffic and transactions.
https://github.com/monikasharma2204/E-commerce-website

Zoom-Clone
This app allows users to communicate with each other through video, audio, and text, just like in Zoom. To implement such a clone, WebRTC technology is used, along with several other technologies, such as JavaScript, SocketIO, Express.js, Node.js, React, and Simple-peer.
https://github.com/monikasharma2204/Zoom-clone

Crypto Tracker
It contains two sections, one for searching the name of the cryptocurrency and the other for displaying all the available cryptocurrencies in the market. Initially, fetch all the data from the API.This project based on React JS.
https://github.com/monikasharma2204/Crypto-Tracker

Movie-app
we can find a short brief summary , major plot points of the movie by searching the movie name.
